Don't let imitation assessment providers *trick* you!

Talevation has partnered with vendors with validated content that meets EEOC guidelines for compliance. Our vendors have data-backed science behind their tests and over 20+ years of experience with no successful legal challenges. Contact your Talevation rep if you need information on validation studies or other documentation.

We've *monster*-ously good news: SHL has released their job focused assessments (JFAs) for graduates and technical professionals on the TC+ platform! Your Talevation team is available to assist in providing more information. Ask today to see a sample of these tests and discuss adding to your account.

Pre-hire testing can be a *treat!* Did you know many of the PLUS titles provide a shorter, more positive candidate experience? Talevation can help you review what modules your organization is currently administering to verify if newer content might better fit your needs.

Reminders:

No one likes to be *ghosted*. Have changes in your organization's billing or primary point of contact? Have a new address?

We're implementing a new CRM system and appreciate you sharing any updates or additions so we can correct our systems.

Haunted by gaps in your current employees' skillsets?

Did you know that you can utilize assessments to help identify "skills gaps" and develop customized employee training programs that match your current and future needs. Our team is eager to provide solutions as today's hiring environment and job roles continue to evolve. Reach out to your Talevation rep today!

Does the thought of sending candidates multiple tests give you a **fright**?

Talk with your Talevation rep about our other vendor offerings that allow customers the ability to combine skill questions from multiple topics into a single test, or the ability to upload content you create.

As always, We are here to help! Please reach out to your account representative with additional questions.
