## Employee Appreciation Day is March 1st 2024!

According to Glassdoor, 81% of employees are more motivated to work harder when their boss shows appreciation. But it's not just linked to motivation. Engagement, productivity, and morale also get a boost with consistent employee appreciation.

According to a Workhuman-Gallup report, employees who report being recognized at their organization are 39% more likely to be engaged, 27% more likely to be thriving, and 45% more likely to agree they see a path to growth within the organization. Workhuman's research has found that nearly 40% of employees are ready to look for a new job if they feel like they aren't getting adequate and meaningful appreciation.

In fact, research shows that employee recognition:

- **Increases Retention** Employees are 56% less likely to be looking or watching for job opportunities.
- **Boosts Motivation** Employees are 5x as likely to see a path to grow at their organization.
- **Improves Engagement** Employees are 4x as likely to be engaged.
- **Promotes Wellbeing** Employees are 44% more likely to be "thriving" in their life overall.

You have built a great team- celebrate!
